

GRADE POINT AVERAGE for NONHONOURS PROGRAMS

The Grade Point Average (GPA) is a numerical index that summarises academic performance, and ranges from a minimum of zero to a maximum of 7 (scale of 0 to 7).

Program GPA

The Program GPA is the average of the grades obtained in all courses in the program, weighted by the unit value of each course. Students enrolled in more than one program will have a separate GPA for each, calculated using the final grades of the courses associated with each program. Only courses studied at the University of Adelaide are included in the GPA with the exception of language courses undertaken at Flinders University between 2002 and 2005.

No GPA is calculated for the following programs: Bachelor of Medicine/Bachelor of Surgery, Bachelor of Dental Surgery, and Bachelor of Oral Health

2. Next, the number of units assigned for each grade is multiplied by the number of grade points to give the total number of course grade points for each course, in each program. For example, for a student enrolled in the Bachelor of Arts program (BARTS) and the Bachelor of Commerce program (BCOM):

Program	Course	No
---------	--------	----
