
Student Insights Teaching Staff

Information for

What is Student Insights?

The Student Insights dashboard displays for the individual student a summary of their MyUni activity and that of their peers, which is intended to help them develop more effectively and become better-regulated learners. The dashboard shows the most

You can mention that the page is available during a lecture or tute, include the information on any pages about Student Support Resources. You can also direct [them to the Student Insights guide for s](#)

3 Actively encourage student use.

Students find the page most useful in the early weeks of a course, after returning from a break, and when a major assessment or exams. Reminders about the page at these times can be useful.

Encourage students to use the ratings feature, and inform ~~them that~~ ~~to~~ these ratings for immediate student feedback on course content. Note that students cannot rate assessments or quizzes, and can only rate content of a course they have viewed. Students will more actively engage with this feature if they know
